☐ table(s) related to the sequence listing

b. format of material

**WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY**

International application No.
PCT/US05/02843

Box No. V Reasoned statement under Rule 43 bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)

Claims 1-20 YES

Claims NONE NO

Inventive step (IS)

Claims 1-20 YES

Claims NONE NO

Industrial applicability (IA)

Claims 1-20 YES

Claims NONE NO

2. Citations and explanations:

Claims 1-20 meets the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a control system comprising a direct-select key for transmitting a first command signal to instruct a media control system (i.e. DVD player) that executes machine instructions, to initiate an operation that is selectively associated with an icon on the control system and a navigation key to instruct the media control system to perform a navigation operation defined in the icon such that operation will be the same for any of a plurality of media control systems which access the machine instructions.

Claims 1-20 meets the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
